

International Antibiotic Awareness Week

20th November, 2024

Antibiotic Awareness Day - Poster competition

We invite you to design a poster

- You can participate individually with an E-poster
- In English or in Hungarian
- A3 size
- uploaded as pdf to elearning (elearning.med.unideb.hu)
▶ Antibiotikum Nap „kurzus” ▶
Poszter feladat/Poster task
- Posters of both languages will be evaluated together
- **Topic:**
A poster to be posted onto the patient information board of a GP practice, which inform the patients of the problem of antibiotic resistance.

Dear Students,

Antimicrobials as definitive therapies against pathogens contribute crucially to increased life expectancy and to the success of many life-saving modern medical interventions. However, despite their indispensability, this resource has not been used thoughtfully. Their frequently unnecessary use, by driving microbial evolution towards resistance, has led to a threatening decrease in their efficacy. This problem is highlighted every year by the Antibiotic Awareness Day at 18th November and the long stream of events in the Antibiotic Awareness Week.

Accordingly, we call You to get linked to the Antibiotic Awareness Week, in order to raise the awareness to this increasingly important public health problem.

Evaluators

- **Dr Cecília Müller CMO**, head evaluator
- **Dr. Marianna Móré**, scientific advisor, dean of the Faculty of Health Sciences
- **Dr. Eszter Vitális**, consultant infectologist, UD Clinical Centre
- **Dr. Dalma Papp**, research fellow, UD FHS, One Health Institute
- **Lilla Buzgó**, junior research fellow, UD FHS, One Health Institute
 - **Zsófia Kádár**, student of the Faculty of Medicine
 - **Vivien Vincze**, student of the Faculty of Health Sciences

Apply at the elearning.med.unideb.hu site 13th November 13. 23:59 at latest.

Posters will be evaluated by creativity, professional content and aesthetics.

Prizes: bookstore coupons

valued 20 000 HUF (1st prize); 15 000 HUF (second prize); 10 000 HUF (third prize).

Awarding will take place at the event on the International Awareness Day at the University of Debrecen, 20th November, 2024, 12:50.
